"NATUR IM GARTEN"

WORLD OF EXPERIENCE

from 30th March until 26th October 2024

WWW.DIEGARTENTULLN.AT

WELCOME TO DIE GARTEN TULLN

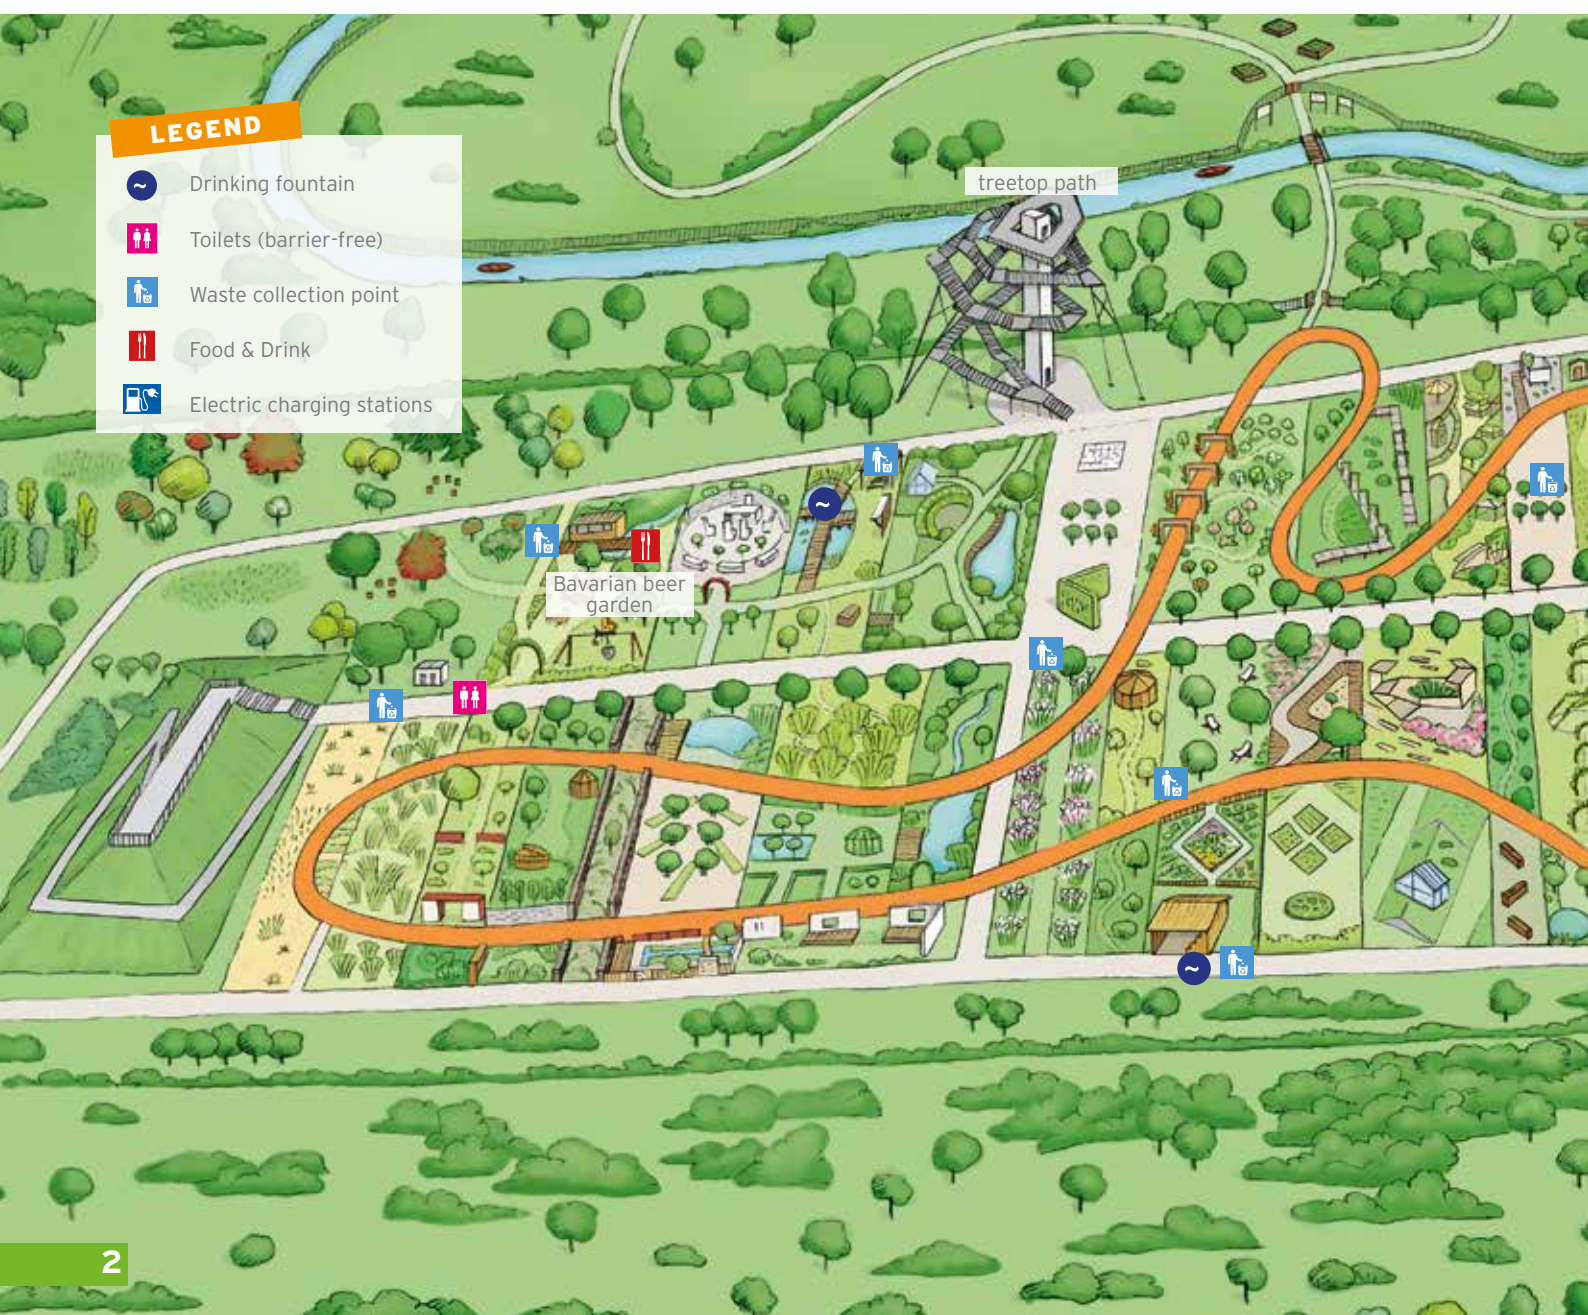

DIE GARTEN TULLN is located in the heart of Lower Austria, halfway between Vienna and the Wachau. A total of 70 purely ecologically maintained show gardens invite you to enjoy nature and to collect ideas for your own green living room. Whether garden, balcony or terrace - DIE GARTEN TULLN offers suggestions, tips and tricks to all garden fans. The barrier-free area is also an ideal excursion destination for people with mobility impairments.

The restaurant "DIE GÄRTNEREI" offering a view over the water lily pond, the Bavarian Beer Garden or winery Koch's garden wine shop WEIN-GE-NUSS provide a wide range of cuisine.

The treetop walk, in combination with the observation platform located in a height of 30 metres, offers a wonderful panoramic view over the Danube valley, into the Wagram region and even as far as the Alps to the Schneeberg and Ötcher mountains.

DIE GARTEN TULLN, the first ecological garden show, is maintained strictly according to the "Natur im Garten" rules and criteria, which means that no peat, chemical-synthetic plant protection products or fertilisers are used. DIE GARTEN TULLN is managed as a botanical garden.

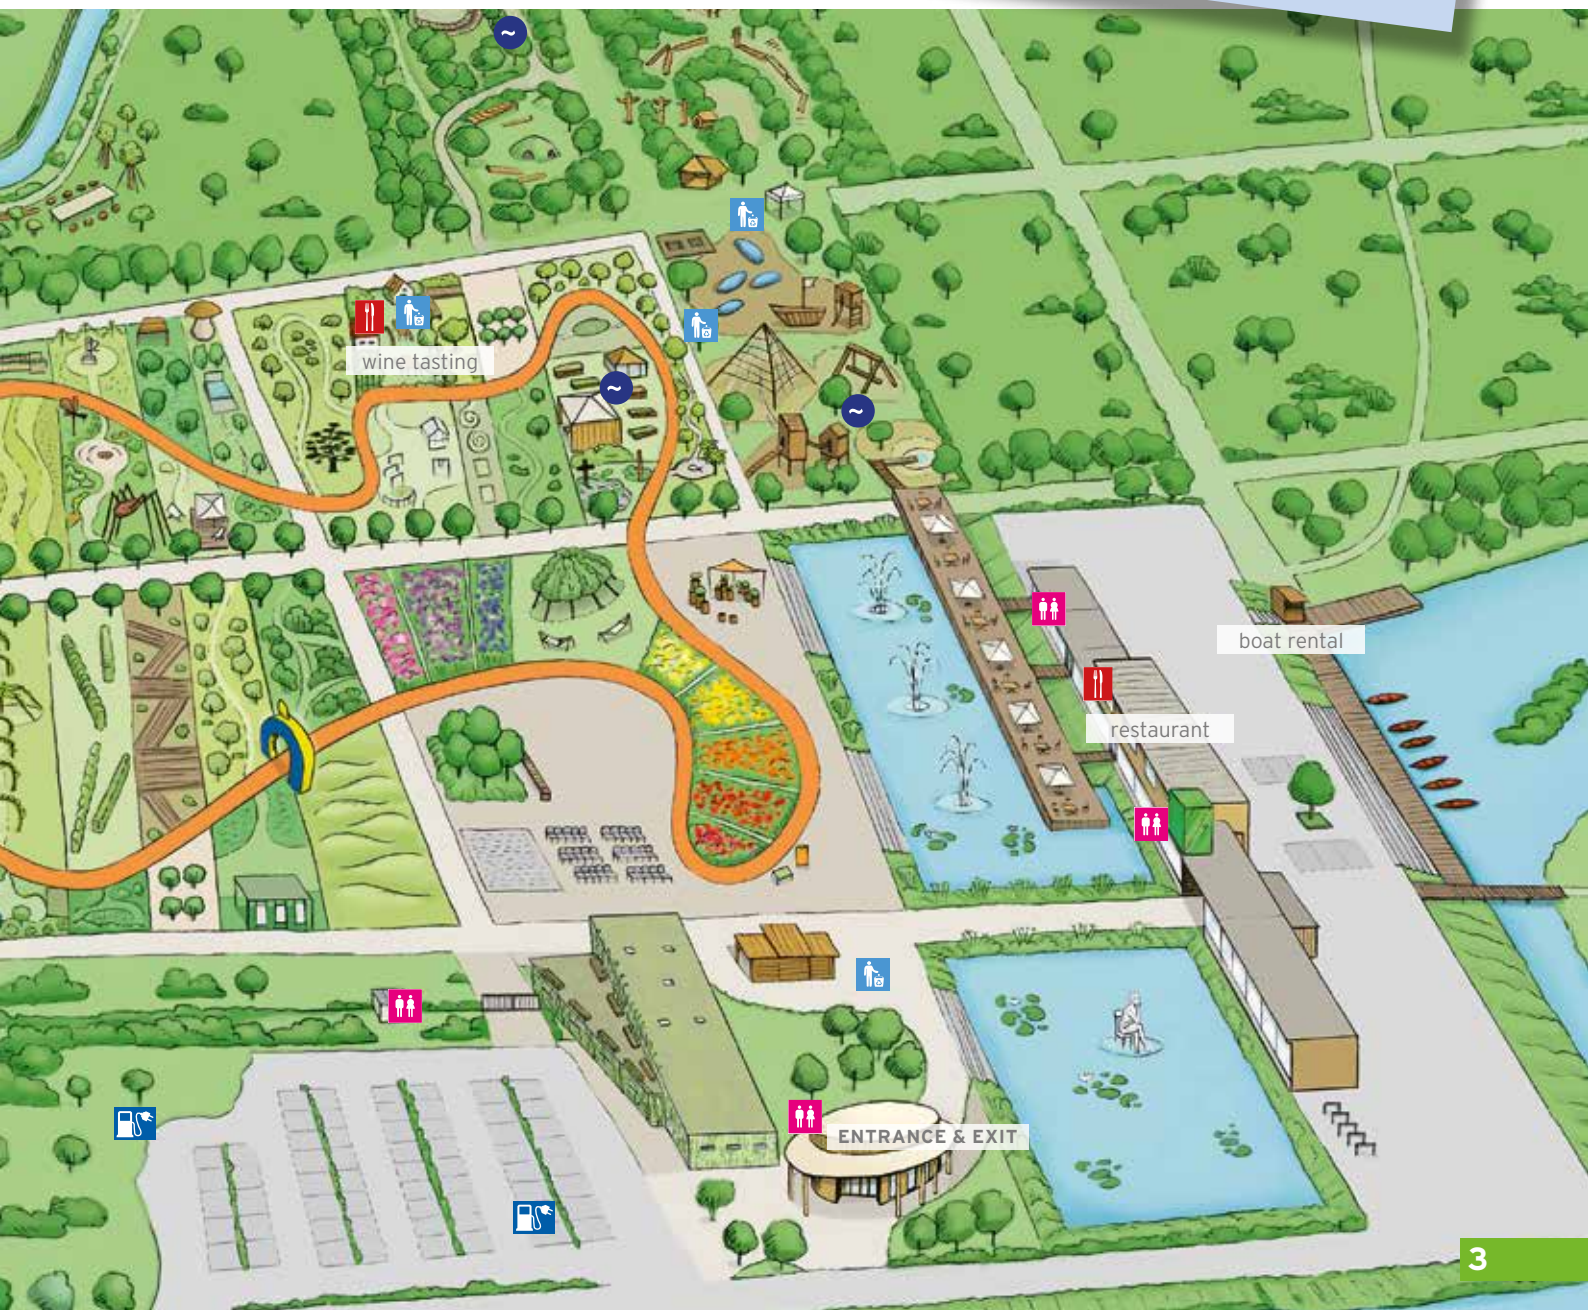

DIE GARTEN TULLN opens its garden gates every year from March to October.

GUIDED TOUR

General guided tour

On this tour you will receive valuable and exciting background information about DIE GARTEN TULLN. Learn some interesting facts from our nature intermediaries.

Gardens in climate change

What does climate change mean for plants and animals in the garden? How can we create oases of well-being in the garden that ensure a pleasant microclimate? During this guided tour you will experience how to garden in a climate-friendly manner and how to prepare for long periods of heat, but also for heavy rainfall events.

Guided tour through the herb gardens

Depending on the season, kitchen herbs, wild herbs and wild fruits are presented and tasted. Learn more about seasoning with herbs, their healing properties and traditions of use.

Near-natural gardening made easy

Do you have problems with plant lice, rose rust and the like? We will show you how to control pests without using chemical pesticides.

The diversity of roses

Every year, over 100 different rose varieties blossom on the grounds of the garden show. On this guided tour you will also learn more about the ecological care and strengthening of roses. This tour is only available from June to September.

Insights behind the scenes

You have never experienced DIE GARTEN TULLN like this before! Take a look behind the scenes of the ecological garden show.

Native trees and their stories

On this tour you will discover tree and shrub rarities such as chestnut, common beech and silk tree. Which one is suitable as a shade tree or is particularly heat-tolerant? As a special highlight, we will determine the season according to nature's 10 seasons and visit our new tree collection.

PROGRAMMES FOR BLIND AND VISUALLY IMPAIRED PERSONS

Guided tour

This tour focuses on multisensory experiences of nature, active and receptive perceptions of nature, as well as knowledge transfer about ecological gardening. The pleasurable sensation of "being in the garden" will not come up short either.

Maximum number of participants: 10 persons
Accompanying persons are free of charge.

Guided tour and "active gardening"

Our gardens offer blind and visually impaired persons and accompanying persons the ideal setting for active gardening. Already during the tour through the gardens, fruits, vegetables and herbs depending on the season are harvested. Plants are placed, fertilised and watered in raised beds, seeds are sown or flower bulbs are planted.

Experienced gardeners can try out practical tips for ecological gardening right away, whereas gardening beginners can start their gardening career with pleasure - with a huge experience factor!

PROGRAMMES FOR PERSONS WITH DISABILITIES

OUR GARDENS ARE THERE FOR EVERYONE!

Based on this philosophy, we offer programmes which are adapted to all needs:

"Sensory experiences and experiencing nature"

The focus of this special tour is on the stimulation of sensual perception, the mindful lingering and enjoyment in nature, as well as on discovering the diversity of plants and animals in our gardens.

"Working with natural materials"

During an extensive tour through our gardens, we collect natural materials, which are subsequently used to create natural artworks, such as a miniature herbarium or plant sap pictures.

"Active Gardening"

This workshop focuses on practical gardening. While watering, weeding and harvesting together, we will enjoy the positive experiences of these activities on a cognitive, emotional and sensorimotor level.

PROGRAMMES FOR SCHOOLS AND KINDERGARTENS

At DIE GARTEN TULLN, children and teens can immerse themselves in the colourful world of gardens. In our eco-educational programmes, kids learn how to interact with nature playfully. Our experts provide support to the teaching staff as regards the age-appropriate teaching of the contents of the “Natur im Garten” model school garden.

Which animals live on our doorstep or which fruits and herbs are edible? In the “Natur im Garten” world of experience, children – from nursery school to primary school to secondary school – actively go on an exciting voyage of discovery and discover the local flora and fauna with all their senses. Frogs, wild bees, squirrels, hedgehogs and many more – the 70 ecologically maintained show gardens at DIE GARTEN TULLN are home to numerous animals, waiting to be discovered by knowledge-hungry children.

On Lower Austria’s largest Nature & Adventure Playground one can find plenty of room to get rid of any excess energy. In addition, there are a lot of hidden angles and corners to discover and explore. On an area of over 10,000 square metres, there are also numerous elements making it possible for children with mobility impairments to play.

DIE GARTEN TULLN offers a multitude of ideas for a perfect excursion!
