DIE GARTEN TULLN „NATUR IM GARTEN“ EXPERIENCE WORLD

Europe's first ecological garden show and popular excursion destination is open daily from April to October. The Lower Austrian National Horticultural Show (Niederösterreichische Landesgartenschau) was set up as a permanent exhibition on the meadow, near Tulln town centre in 2008. 70 ecologically tended show gardens, a 30-metre high treetop walkway, Lower Austria's largest adventure and nature playground, and lots of events promise a fun-filled day out. In the wheelchair-suitable area of the garden show you'll get ideas and inspirations for your own garden, plus there are plenty of opportunities to relax and recharge.

AN ECOLOGICAL SHOWCASE

Since its creation, DIE GARTEN TULLN has evolved into a showcase project like no other in Europe. The strictly ecological way in which the grounds are cared for has become an example for many other garden festivals in Austria and abroad. DIE GARTEN TULLN has also been an approved botanical garden since 2014.

No pesticides, no synthetic fertilisers and no synthetic peat: since DIE GARTEN TULLN was opened, its gardeners and partners have closely adhered to the stipulations of the Lower Austrian „Natur im Garten“ campaign. This makes the garden experience unique in terms of its ecological and sustainable management.

- THINGS TO KNOW**
- Europe`s first ecological garden show
 - 70 show gardens

THE GARDENS

The gardens of DIE GARTEN TULLN vary greatly in their structure, size and theme. Different garden partners, be it professional gardeners, nurseries, horticultural institutions, schools or clubs all create inspirations for your own garden, as well as lots of places for you to stop and relax.

A few select examples from the gardens: Tulln is often referred to as city of flowers - so the Queen of Flowers, the rose, must be on her throne. In this way „The Rose Garden“ shows the diversity of its varieties and companion plants. Cheerfully colourful, romantic, lush: „The Farmer's Garden“ is like a little Garden of Eden, linking form and function.

The „Model School-Garden“ supports near-natural types of learning and the development of a sincere relationship with nature. The „Witches' Dance“ lives up to old myths with its wonderful variety of flowering plants as well as the oldest tree on the ground.

„YES“ beam the bridal-couples in „The Love Garden“ among fragrant roses. International greetings are extended from the „English, Portuguese, and Baltic Gardens“.

THE ATTRACTIONS

Stretching out high above the tops of the mighty trees is the 30-metre high treetop walkway. It gives breathtaking views over the show gardens, the Danube floodplains, Tulln, and all the way to the Ötscher peak. There is a lift access to the treetop walkway until the uppermost platform, which is suitable for wheelchairs.

The largest adventure and nature playground in Lower Austria offers plenty of space for imaginative and creative play. The surrounding floodplain was carefully and naturally reclaimed as a parking area.

The restaurant „Die Gärtnerei“ (The Nursery) overlooks the water lily terrace and treats visitors daily to its fresh-from-the-garden cuisine. Snacks and drinks are on sale in the „Bavarian Beer Garden“.

Finish the day with a glass of wine in The Wine garden „WEINGeNUSS“. The shop in the visitor centre has lots of useful bits and bobs for gardeners, a wide range of books, food from the local cuisine and decorative souvenirs. Perennials and seasonal herbs can be purchased from the plant shop at the exhibition ground.
